

Job Description

Job Title: Senior Architectural Designer
Reports To: Senior Vice President Architectural Design

NOTE: Please send ALL resumes and portfolio links to info@eagleves.com

Summary

Develop drawings, sketches, master plans, models, and creative design and planning solutions during the Blue Sky, Concept Development, and subsequent phases of work. Create graphic and narrative reports on project sites, formulating plans for development and construction using AutoCAD and other sophisticated computer-aided design (CAD) tools. Create feasible and construct-able designs that align with program plans, creative intent, schedule, and budget requirements. Create 3D digital models that accurately and clearly depict the architectural design intent. Provide aesthetic design, color boards, sketches, and drafts. Review architectural designs. Participate in the development of architectural and creative development Standards. This person has ten(10) years experience in either themed entertainment or hospitality design.

Essential Job Functions

- Create compelling conceptual art, illustrations, and sketches to convey the vision of a concept prior to further development
- Produces sketches, storyboards, or roughs to communicate ideas and explore design options in creative/client meetings and presentations
- Conceives, develops, and defines all design elements of assigned projects that represent the project's creative intent, interacting with creative partners to support creative concepts and the executions of assigned projects
- Develop and present appropriate project presentations to communicate project concept, content, and status updates
- Ensure consistent application of quality standards, maintaining a cohesive design in all elements associated with the project throughout all phases of development
- Contribute to the development of the artistic techniques and processes used to define and achieve the visual style of a concept
- Work closely with the Senior Vice President Architectural Design to meet all budget, schedule, and quality goals

Key Competencies

- Accomplished with many different methods of design and visualization, including, but not limited to: participating in brainstorm sessions and creating sketches, storyboards, POVs, renderings, 3D models, illustrations, plans, sections, and elevations
- Works by hand including, but not limited to, BIM, V-Ray, AutoCAD, Adobe, Sketchbook
- Knowledge of international Building Codes (IBC).
- Must show the ability to design architectural scenes including, but not limited to, interior/exterior environments
- Must demonstrate ability to adhere to project timeframes and budgets
